

BRANDED PRODUCTS

www.brandedproducts.com.au

Waste Management

- All paper is either shredded for packing and filling or placed in a recycling bin for collection
- All cartons are reused and if additional cartons are required, second hand cartons are purchased.

Energy Management

Branded Products has invested in blind awnings over all windows, reducing the need to use air conditioning in the office.

Programs currently participating in

The organisation has invested in sourcing and promoting its range of environmentally friendly/green products as alternatives to traditional products e.g. biodegradable pens made out of corn starch or conference bags made out of recycled plastic bottles (PET) and recycled paper for printed products.

Projects to be Completed

Branded Products is in the process of completing its new website with a dedicated green section predominately displayed on the home page.
