Food Philosophy

EPICURE does more than just serve food, stage events, and offer the best possible produce. Their philosophy runs much deeper. Favouring local suppliers, they're always aiming to reduce their carbon footprint by supporting home grown, environmentally sustainable produce.

EPICURE uses free-range poultry and smallgoods wherever possible, and never uses cage-reared eggs. All seafood is Australian, farmed or wild. Their philosophy also extends to the sourcing of specialty local dry goods such as nuts, grains, and vinegars, as well as local mineral water, 100% Australian orange juice and a Fair Trade coffee blend.

This approach ensures EPICURE creates exciting seasonal menus that revolve around fresh local produce when it's at its best. So whatever time of year your event is being held, you'll be guaranteed an outstanding meal.
