## Explore Victoria's natural environment, culture and history at Melbourne Museum.

Located in Carlton Gardens opposite the historic Royal Exhibition Building, Melbourne Museum is the largest museum in the Southern Hemisphere.

Its award winning design displays an innovative combination of space, texture and shapes; from soaring glass walls to bold, bright columns. It boasts eight main galleries with permanent

collections including The Melbourne Story, featuring the Museum's most popular object, Phar Lap.

Treetops combines contemporary style and light with a view of Carlton Gardens through floor to ceiling windows. Ideal for larger events, the Main Foyer has a back drop of the living Forest Gallery.

Reconnect with history at this impressive, modern venue.
